

SMONLEAP

Leap forward into education! Smonleap is a smart agile e-learning platform that brings companies, coaches, and employees together facilitating **L&D**.

EdEra Technologies is on a mission of **reshaping** the modern **learning and development** process

We are building a system that **fills the gap** between the knowledge **source** and its **target**. This system **connects the dots** in corporate learning and **unlocks the potential** in the individuals.

We are building **SMONLEAP** - smart online learning platform - the user-centered framework of the **future** of education.
